"This is the best resource that I have come across as an innkeeper. Without doubt, it is invaluable in operating your business, especially from a legal point of view regarding innkeepers' situations. It is a phenomenal resource that I would recommend to any innkeeper in this province, and great value for money spent."

"Your massive Reference Book has certainly grown into a really wonderful reference source. All the articles are brief and to the point. Every page is exciting and begs you to turn on for more. I only wish the Book was available when I started in the business. Would have saved a fortune going to seminars and conferences."
